Gemasa Hidrolik San. ve Tic. Ltd. Şti., krikove hidrolik sistemler imalat sektöründe uzun yıllara dayanan tecrübesiyle faaliyet göstermektedir. Güçlü mühendislik altyapımız ve yenilikçi çözümlerimizle sektördeki lider firmalar arasında yer almayı başarmış bulunuyoruz. Ürün portföyümüzde hidropnömatik krikolar, hidrolik silindirler, pnömatik hidrolik pompalar ve istifleme makineleri gibi geniş bir yelpazede çözümler sunuyoruz.

Müşterilerimizin ihtiyaçlarına en uygun çözümleri sağlamak adına sürekli olarak teknolojik gelişmeleri takip ediyor ve üretim süreçlerimizi bu doğrultuda geliştiriyoruz. Güvenilirlik, kalite ve müşteri memnuniyetini ön planda tutarak, sektördeki konumumuzu daha da ileriye taşımak için var gücümüzle çalışıyoruz.

Gemasa Hidrolik San. ve Tic. Ltd. Şti. operates in the manufacturing sector of jacks and hydraulic systems, backed by years of experience. With our strong engineering foundation and innovative solutions, we have successfully established ourselves as one of the leading companies in the industry. Our product range includes hydropneumatic jacks, hydraulic cylinders, pneumatic hydraulic pumps, and stacking machines, offering a comprehensive set of solutions.

We continuously follow technological advancements and improve our production processes to provide the most suitable solutions for our customers' needs. Prioritizing reliability, quality, and customer satisfaction, we strive to further strengthen our position in the industry.

HİDROPNÖMATİK KRİKO
HYDROPNEUMATIC JACK
GMS 110 (40-25 Ton)

KATLANIR KOLLU MOBİL KRİKO

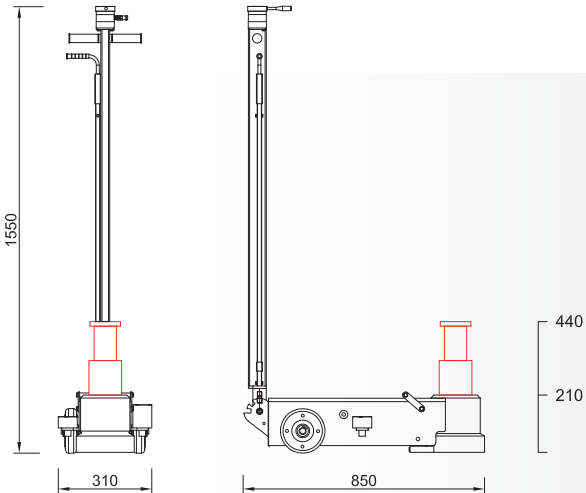

Kaldırma Kapasitesi Lifting Capacity	40-25 Ton
Minimum Yükseklik Minimum Height	180mm
Maksimum Yükseklik Maximum Height	350mm
Ağırlık Weight	61 Kg
Hava İhtiyacı Air Requirement	9-12 Bar
